DEPARTMENT VISION

“To become a prominent department of Computer Science & Engineering producing competent professionals with research and innovation skills, inculcating moral values and societal concerns”

About the Department

The department of Computer Science & Engineering was established in the year 1983 and the department offers a Bachelor of Engineering degrees in Computer science and Engineering with an intake of 180 students. These degree programs prepare graduates for successful, profitable, and future careers in Computer Science & Engineering. Computer Science and Engineering students study hardware and software systems through innovative classroom instructions, supported by laboratories equipped with the state of the art hardware and software. A computer science laboratory II was set up with 60 computers and first year lab was accommodated with 70 computers. The department ensures that the students are introduced to both fundamental and advanced knowledge in areas such as Machine learning, Networking technology, computer security and software engineering, etc.

Salient Features of the department are as follows.

- ◆ The department has got NBA accreditation under Tier-I.
- ◆ The VTU has recognized the department as a research center for carrying out research work leading to M.Sc. (Engg.) by research & PhD.
- ◆ State of the Art Computing Facilities.
- ◆ ICT in Teaching and Learning.
- ◆ Mentoring By Industry experts for various courses wherever necessary.
- ◆ Research & Publications with Social Impact.
- ◆ Supportive Learning for Placements.
- ◆ Professional Development for Industrial Engagement.
- ◆ Alumni Expert talk will be organized on every month.

Program Educational Objectives

- ◆ **PEO 1:** Graduates will be efficient software developers in diverse fields and will be successful professionals and/or pursue higher studies.
- ◆ **PEO 2:** Graduates will be capable to adapt to new computing technology for professional excellence and Research and will be lifelong learners.
- ◆ **PEO 3:** Graduates will work productively exhibiting ethical qualities for the betterment of society.
- ◆ **PEO 4 :** Graduates will possess leadership qualities, work harmoniously in a team with effective communication skills.

DEPARTMENT MISSION

- ◆ *Provide learning ambience to generate innovative and problem solving skills with professionalism.*
- ◆ *To create facilities and expertise in advanced computer technology thereby promote research.*
- ◆ *Enhance Industry Institute Interaction program to get acquainted with corporate culture.*
- ◆ *To induce ethical values and spirit of social commitment.*

The Department of Computer Science and Engineering is actively engaging in programs aimed at enhancing student development in both technical and creative aspects.

These initiatives include the AURA project expo, workshops on machine learning and cyber security, a 4-week Micro Engineering Certification Program in Core Java, and a two-day hands-on workshop on Flutter.

In addition, students are encouraged to develop their innovation skills through activities such as a debate on entrepreneurship as a career option, an impact lecture series, and panel discussions on design thinking. The department also provides exposure to mock placement and resume writing.

The faculty members of the department are contributing to the initiatives through their own publications.

The department is doing an excellent job of organizing extra-curricular activities alongside regular academics, and it is expected that this will result in a significant number of innovative ideas and entrepreneurial ventures from the students.

RESUME WRITING AND MOCK PLACEMENT

Resume writing introducing ourselves to us and to the reader. It gives a more complete overview of our experience and qualifications. This becomes very evident with the way we project the most needed keywords, eliminating what is not needed and enhancing what will add value to our career growth. Today, the perspective towards a resume has changed. Companies, today look for Resumes, CVs and Profiles, depending on the seniority that they are hiring for. You need a consultant to suggest and advise the right approach.
