Unnat Bharat Abhiyan

<u>Imparting Basics of Computers at Gopanahalli School- 16-06-2022</u>

One day **"Imparting Basics of Computers"** was conducted for the primary and higher primary school students of Gopanahalli Village on 16-06-2022.

Dr. Geetha Kiran A, Coordinator, UBA and her team organized an event to impart the basics of computers to the students of primary and higher primary at Gopanahalli village under Unnat Bharat Abhiyan. The objective of the event was to provide the students with an opportunity to learn about computers and its applications, which would enhance their digital literacy and enable them to leverage technology for their academic and personal development.

The event was organized at a Gopanahalli School in Gopanahalli village. A total of 50 students from primary and higher primary schools in the village participated in the event. The event was conducted in a participatory and interactive manner, with a mix of theoretical and practical sessions. The event was divided into several sessions, covering the following topics:

Introduction to computers: The students were introduced to the basics of computers, including the components of a computer system, types of computers, and applications of computers in various fields.

Keyboard and mouse skills: The students were taught how to use the keyboard and mouse, which are essential tools for using a computer.

Basic software applications: The students were introduced to basic software applications such as MS Word, MS Excel, and MS PowerPoint. They were taught how to create documents, spreadsheets, and presentations using these applications.

The event was well-received by the students and the local community. The students showed a keen interest in learning about computers and its applications. They actively participated in the theoretical and practical sessions, asking questions and seeking clarifications.

The event organized by Dr. Geetha Kiran A and team to impart basics of computers to the students of primary and higher primary at Gopanahalli village under Unnat Bharat Abhiyan has been successful in enhancing the digital literacy of the students. The event has provided the students with an opportunity to learn about computers and its applications, which would enable them to leverage technology for their academic and personal development.
