One day Science Expo - 11-07-2019

One day “**Science Expo**” was conducted for the primary and higher primary school students of Heragu Village on 11-07-2019.

A team of 10 students along with two faculty members Dr. Geetha Kiran A (UBA coordinator) and Mrs. Mohana Lakshmi J. (Assistant Professor, Department of EEE) started around 9.30 am and reached Janatha Primary School, Heragu at 10 am.

The school students welcomed the team with great enthusiasm. After discussing with the school Head mistress, the students were split into two groups. The student team of UBA conducted the experiments in two streams viz. Physics and chemistry to the two groups of students.

The students were exposed to various experiments in physics and chemistry. Experiments on concave lens, convex lens, use of prism, identification of acids and bases, interaction between various chemical compositions were exhibited to the students.

The school authorities and the staff were overwhelmed by the response of the students and thanked the coordinator, Dr. A. Geetha Kiran for her efforts in educating the young minds. The event gained lot of appreciation. The team returned to the institution at 5.30 pm.
