

Memorandum of Understanding (MOU) Report

Date: January 24, 2024

Parties Involved:

First Party - ExcelR: A Global Leader in Training Delivery and Corporate Services, Bangalore

Second Party - Malnad College of Engineering, Hassan: A reputed educational institution

About ExcelR:

ExcelR is a global leader delivering a wide gamut of management and technical training over 40 countries. We are a trusted training delivery partner of 400+ corporate clients and universities/educational institutions across the globe with 150,000+ professionals trained across various courses. ExcelR helps individuals and organizations to excel by providing courses based on practical knowledge and theoretical concepts.

Objective:

The signing of this Memorandum of Understanding marks a significant collaboration between ExcelR and Malnad College of Engineering, Hassan, aimed at fostering mutual benefit in the field of education. The agreement focuses on various aspects, including Training Delivery & Knowledge Dissemination, Faculty Development, Curriculum Enhancement, Focused Programs, and Skill Development & Guest Lectures.

1. Training Delivery & Knowledge Dissemination:

The collaboration seeks to bridge the gap between academia and industry by designing Student Development programs aligned with industrial requirements. These programs will leverage input from the industry, ensuring that students are well-prepared for current trends and emerging technologies. The curriculum will include intensive training on Data Science, Data Analysis, Artificial Intelligence, Python, and other trending technologies, with a substantial requirement of 30-40 hours, meeting the standards set by NAAC and NBA.

2. Faculty Development:

To ensure that the faculty remains abreast of industrial requirements and national standards, the MOU outlines training programs tailored for them. This initiative aims to enhance the overall quality of education by empowering faculty members with the latest knowledge and skills.

3. Curriculum Enhancement:

Recognizing the dynamic nature of the industry, the collaboration aims to tailor the academic curriculum to ensure its relevance and readiness for the evolving industry landscape. This proactive approach towards curriculum enhancement reflects the commitment of both parties to providing students with a robust education that meets contemporary industry needs.

4. Focused Programs:

Specialized programs will be designed for final year students, addressing the specific needs of bridging the gap between academia and industry requirements. These programs will offer practical insights and experiences, preparing students for a seamless transition into the professional world.

5. Skill Development & Guest Lectures:

The MOU emphasizes the importance of skill development by incorporating guest lectures and industry-oriented workshops. This strategy aims to expose students to real-world scenarios and industry experts, enriching their learning experience and fostering a holistic understanding of their chosen field.

The signing of this MOU between ExcelR and Malnad College of Engineering, Hassan, signifies a commitment to advancing education through collaborative efforts. By addressing the critical aspects of Training Delivery, Faculty Development, Curriculum Enhancement, Focused Programs, and Skill Development, both parties aspire to create a dynamic learning environment that prepares students for success in the ever-evolving landscape of the industry.

This partnership not only strengthens the ties between academia and industry but also contributes to the holistic development of students, making them industry-ready professionals upon graduation. ExcelR and Malnad College of Engineering anticipate that this collaboration will serve as a model for future industry-academic partnerships, fostering innovation and excellence in education.

**NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL
PROMISES SET FORTH IN THIS MOU, THE PARTIES HERE TO
AGREE AS FOLLOWS:**

CLAUSE 1: CO-OPERATION

6. Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the Institution and its related wings.
7. First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to the second party in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.
8. The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.
9. ExcelR would be the training delivery partner for the second party on various trending technologies
10. Training & Development and dissemination of knowledge for students of second party & affiliated colleges and employees of both organizations.
11. Cooperation between both parties would be extended to any other area which may be mutually beneficial to both the organizations.

CLAUSE 2: SCOPE OF THE MoU

12. The budding graduates from the institutions could play a key role in technological up-gradation, innovation, and competitiveness of an industry. Both parties believe that close cooperation between the two would be of major benefit to the student community to enhance their skills and knowledge.
13. Curriculum Design First Party will give valuable inputs to the Second Party in teaching/training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
14. Software Technologies Training. The first party will provide the pieces of training to the students and Faculties of the second party on different technologies like Data Science, Data Analyst, Artificial Intelligence, Tableau, Python, etc. Research and Development
